Salt Lake City, UT 84114-6751

Dear Chris:

DOCKet NO. 12-999-02

Questar Gas Company (Questar Gas or the Company) respectfully submits this report and its accompanying exhibit to the Utah Division of Public Utilities (Division) in accordance with the Report and Order approving the Settlement Stipulation issued June 3, 2010 in Docket No. 09-057-16. Paragraph 15 of the settlement stipulation states that, "The Company will file quarterly reports describing the progress of infrastructure replacement with the Division."

The attached Exhibit 1 is a status report for the first six months of 2012. Column A of Exhibit 1 shows the budget by project. On November 12, 2011, Questar Gas submitted a replacement plan to the Commission. This plan included anticipated budgets for 2012. However, three of the anticipated budgets have changed since the first quarter update. The budget for feederline 14 was reduced from \$16.5 million to \$9.5 million for 2012 because more of the project is now anticipated to be completed in 2013. The budget for feederline 25 increased from \$4.5 million to \$5.5 million due to higher expenditures related to the American Fork river crossing. Finally, the budget for feederline 35 increased from \$27 million to \$33 million to include the installation of a pig launcher/receiver.

Column B shows the costs incurred to date. There are several projects in the "Other" section that show a credit. The credit is due to a rebate from the contractor that installed the mains in 2011.

Column C shows the remaining budget for 2012 for each of these projects. Column D shows the anticipated completion date or actual completion date if the project is already in service.

Questar Gas will continue to provide quarterly feederline progress updates on an ongoing basis. If you or your staff has additional questions concerning these reports, please call me.

Sincerely,

Barrie L. McKay General Manager

Regulatory Affairs/Energy Efficiency
